

## Industry's First 3-in-1 Meeting Platform Unifies HD Video Conferencing, Mobility and Web Meetings into a Cloud Service

### KEY 3-IN-1 MEETING FEATURES:

- Supports desktop, tablet, mobile and room systems
- HD video and HD voice
- High quality desktop and mobile screen sharing
- Scheduling, recording and host controls
- Up to 25 participants or rooms
- Mac, Windows, iOS and Android

### PLANS

Personal plan is always free. For our business, enterprise, education and other plans, please see our website: [zoom.us/pricing](http://zoom.us/pricing)

### UNIFIED MEETING EXPERIENCE BENEFITS:

- **Leading HD video conferencing features** such as multi-user, multi-screen, active speaker, spotlight speaker, slider view and view-all.
- **Innovative web meeting features** such as instant meeting, desktop or application screen sharing, host controls, scheduling, join by click, recurring meeting ID and MP4 format recording.
- **Fully "mobilized" features** such as mobile start, mobile schedule and mobile screen sharing – so you have a similar experience across desktop, tablet and mobile devices.

### SECURITY

Zoom provides a robust set of security features across 5 key elements – role-based, in-meetings, communications, meeting and room connector, and detailed reporting.

### 3-IN-1 INNOVATIONS:

**Mobile Screen Sharing:** first cloud service with mobile screen sharing for both tablet and mobile devices. Anyone can now screen-share a Dropbox or Box document, a website or photos from an iPhone or iPad without the need for a PC.

**Hybrid Cloud Service:** first cloud service with the ability to run administrative tasks in the public cloud while meeting traffic, including video, voice and data sharing, goes through the private cloud using the Meeting Connector.

**Room Systems Integration:** connects with H.323 room systems and enables them to participate in cloud meetings using the Room Connector, which can be deployed in minutes on local or cloud virtual machines.
