

Q: What is Zoom Video Webinar?

A: Zoom Video Webinar enables businesses of all sizes to easily conduct large online events with video, audio and screen sharing for better engagement. The simple interface allows you to plan and present professional webinars at an affordable price. Zoom's high-quality experience scales with great dependability up to 50 video participants and 10,000 viewers for a better, more interactive experience.

Q: What are the benefits of Video Webinars?

A: Webinars are one of the most effective marketing methods and with Zoom it's low cost and easy to do. Zoom Video Webinars help businesses reach customers, prospects and employees as effectively as in-person events and more easily than other webinar solutions. Webinars are well known to provide a cost-effective way to help businesses qualify leads faster, speed the sales cycle and improve customer satisfaction. With Zoom's video quality and capabilities, you're going to see major improvement in your participant's engagement. You can also record your webinar and post it everywhere to build your market

Q: What can I do with Zoom Video Webinars?

A: With Zoom Video Webinars you can deliver online events with up to 50 video participants (25 per screen) and 10,000 attendees at a time. Businesses use Zoom Video Webinars for lead-generation, product launches, customer trainings and all-hands events for employees. Video Webinars are also used by educators to reach large audiences across the globe. Zoom Video Webinars includes these capabilities:

- **Broaden your reach:** You can easily attract your audience with a company-branded registration page and emails.
- **Engage your audience:** Being on video helps to make connections and keep everyone more engaged. Involve your Webinar attendees with interactive polling and Q & A. Attendees can also be promoted to panelist to speak and share their video while in-session. You can easily record webinars locally, or in the cloud, in MP4 or MP4A format for later viewing by prospects and customers.
- **Identify sales leads and measure success:** Zoom helps you evaluate the success of your Webinars with reporting to help segment your audience for the proper follow-up.

Q: How are Zoom Video Webinars unique?

A: We've all joined webinars that were terrible and awkward. Sometimes that's because of the content, or the speaker, but many times it's because the platform they are using just doesn't scale well, and aren't stable or reliable. You need a platform that is going to work reliably and help you to easily present your best self. You should not have to worry about the technology, and with Zoom it just works.

Zoom Video Webinars are different because of the incredible quality and reliability of the experience, and you can have up to 50 interactive video participants and up to 10,000 viewers – no other vendor offers this size of Webinar or the video capabilities – and seeing the presenters makes the world of difference in building engagement and trust. Zoom's flat-fee pricing allows you to conduct as many webinars as you want. Customers love Zoom's ease of use, quality, scalability and affordably.

Q: What features are included in Zoom Video Webinars?

A: Zoom Video Webinar is full-featured with everything you need to reach more people and grow your business.

- Up to 50 interactive HD video participants (25 per screen – scroll to see more)
- Choose packages with 100, 500, 1000, 3000, 5000 or 10000 view-only attendees

- Q&A dialog box with live or text answers
- Chat that can be enabled for attendees too
- Record locally or in the cloud in MP4 or MP4A format
- Registration and post-webinar reporting
- Integrations to work with your CRM and marketing systems

Q: What other services does Zoom Video Webinars integrate with?

A: For Marketing / Process Automation for Webinars, Zoom works with Marketo, Pardot and Salesforce to automate email sends, registrations and lead capturing. Zoom also works with Zapier which allows Zoom to integrate with apps including PayPal, Eventbrite, MailChimp and 500+ other services. For a full list of Zoom integration partners, visit: <http://zoom.us/integrations>.

Q: How easy is it to set up?

A: Setting up Zoom Video Webinars is simple. It only takes minutes to set up and requires no training. You can add your brand to the registration and customized your emails for each Webinar. And you can immediately begin scheduling and hosting Webinars.

Q: How do I manage registrations?

A: Zoom Video Webinars offers a lot of flexibility for handling registrations. There are three options for managing registrations. First, is to not require a registration where your invitees will be given a URL to join the Webinar and will simply have to enter their name and email to join. Second, is to automatically approve anyone who has registered for the Webinar and Zoom provides them a confirmation email. Third, you may manually approved attendees before Zoom sends out a confirmation email.

In setting up your event's registration, you can add your brand identity to the form and your email. Zoom also makes it easy to add demographic fields and customized open ended or multiple choice questions.

Zoom Video Webinars integrate many leading CRM systems allowing you to generate leads from participants that joined a Zoom Webinar, or push information captured on your CRM system to a Zoom Webinar.

Q: How easy is it for attendees to join?

A: Attending a Webinar is as straightforward as clicking on a link. Webinar attendees do not need their own Zoom account to join a Webinar and can easily join from any desktop, laptop, mobile device, or Zoom Room. People joining from H.323/SIP systems join as panelists by default.

Q: What reporting options are available?

A: There are registration and attendee reports to help you track leads and segment for follow-up communications. Performance reports are available to see that everyone had a great experience. And reports that capture the Webinar's Q&A and polling are also available. All reports are downloaded as csv files.

Q: How secure are Zoom Video Webinars?

A: Zoom places security as the highest priority in the operations of its public and hybrid cloud networks. Zoom has a robust set of security features to meet the requirements for safe and secure collaboration. The Zoom Cloud is a proprietary global network that has been built from the ground up to provide quality communication experiences. In addition to unique security benefits, Zoom's communications infrastructure also enables an extremely scalable and highly available meeting infrastructure unrestricted by the limitations of physical data centers. Zoom incorporates industry-standard security features, such as end-to-end AES 256-bit encryption, to ensure that login information and Webinar data is secure. Customers in security conscious industries, such as healthcare can use Zoom as it complies the Health Insurance Portability and Accountability Act (HIPAA). A Zoom Video Webinar may also be locked to prevent additional attendees from joining any time. Read [Zoom's Security White Paper](#) for more details.

Q: Is there an on-premise option?

A: Yes, using Zoom's hybrid cloud service you deploy meeting communication servers known as the Zoom Meeting Connector within your company internal network. User and meeting metadata are managed in the public cloud while the Webinar is hosted in your private cloud. All webinar traffic including video, voice and data sharing goes through the on-premise Zoom Meeting Connector. Zoom Meeting Controller can be deployed onto any virtualization platform. Talk to a sales person to learn more.

Q: What are the system requirements for running Zoom Video Webinars?

System requirements for Mac & PC: [View on our support page](#)

System requirements for mobile devices: [View on our support page](#)

Q: What is the difference between Zoom Large Meetings and Zoom Video Webinars?

A: All Zoom meetings allow for 50 participants. Zoom Large Meetings are available in packages for 100, 200, 300 or 500 participants. The Large Meetings have all of the same features of Zoom’s regular meetings with more participants. This is a popular choice for large all-hands meetings or training sessions. Anyone on these meetings can be participant in audio, video, screen sharing, breakout sessions and recording.

Zoom Video Webinars come in increments of 100, 500, 1000, 3000, 5000 or 10000 attendees. All Zoom Video Webinars allow for up to 50 video panelists. The features in Webinar are tailored for managing large audiences with branding, registration, host controls, polls, question & answer, raise hand, and chat. During the Webinar you can momentarily promote any attendee to be a panelist so they can turn on their audio and video. Webinar allows you to brand your webinar and email settings, manage registrations and view 5 types of reporting (csv files for registration, attendee, performance, Q&A, polls). Webinars also have a practice session mode allowing all panelists and the host to get comfortable with their audio, video and Zoom controls before the webinar viewers are able to join.

Q: How much do Zoom Video Webinars cost and how do I buy?

A: Zoom Video Webinars come in different sizes depending on the number of attendees you’re planning on hosting. Flat rate pricing means you can conduct as many webinars as you want, so you can make the most of your investment. There are options for monthly or annual pricing, if you prepay annually you’ll save 17%.

Webinar # of Attendees	100	500	1,000	3,000	5,000	10,000
Monthly	\$40	\$140	\$340	\$990	\$2490	\$6490
Monthly Prepaid Annually	\$33.33	\$116.67	\$283.33	\$825	\$2075	\$5408.33
Annually	\$400	\$1400	\$3400	\$9900	\$24900	\$64900

You can buy a single Zoom Video Webinar online with your Zoom Video Meeting Pro or Business purchase at <https://zoom.us/>.

Zoom enterprise customers can subscribe to multiple Zoom Video Webinar seats by contacting their sales representative or by calling 1.888.799.9666.

Q: Are Zoom Video Webinars available worldwide?

A: Yes. Zoom has data centers on many different continents to ensure a quality experience globally. As long as you have a decent internet connection, you can participate in, or attend, a Webinar from anywhere. Zoom offers unlimited VOIP from any internet connect, and global dial-in (toll applies) for 54 countries. You can also subscribe to Premium Audio for toll-free call from 70 countries.

Q: How can I purchase toll-free audio minutes?

A: Zoom offers unlimited VOIP from any internet connect, and global dial-in (toll applies) for 54 countries. You can also subscribe to Premium Audio rates for toll-free, premium dial-in or call-out numbers with pay as you go or monthly commitments starting at \$100. Global toll-free

allows your participants to call in from any device with no charge. You can select one or multiple countries (70 countries available) for toll-free call-in. Visit: <http://zoom.us/premiumaudio> for more information.

Q: How can I learn more?
